ELECTRIC SOLDERING IRONS

LITTLE DANDY

New kind of quality in economy iron. All parts replaceable in seconds, including element. Plug-type tip. Anti-roll, aerated handle. Heat-deflecting baffle. Super-flexible cord. Perfect balance.

B-SERIES MINIATURES

Newest advance in truly miniature irons. Precise balance. Cool handle. Long-life, "floating," heating element. Anti-roll baffle. Simple three-piece assembly. Boxed with 6' detachable cord set, 3 assorted tips. Packed 6 to case.

BANTAMS

Small American Beauty irons in wide range of watt-inputs and tip diameters to cover entire range of fine and medium-fine jobs on electronic and electrical production lines.

TRANSFORMER TYPES

Variable heat and non-variable heat models. T-6 model shown; precision 6-volt instrument with variety of heat levels, quick tip-heat changes. T-12 and T-30 models non-variable. All models for use where complete isolation from line voltage is desirable or necessary.

STANDARD SERIES

Hundreds of thousands of these models of American Beauty irons are on production lines all over the world. Stocked in tip sizes from $\frac{1}{4}$ " to $1\frac{1}{8}$ ", input wattages from 60 W to 550 W.

ANGLE-TYPE irons available. (Cases angled for hard-to-reach jobs.)

SOLDERING TIPS

Made of commercially pure copper rod. Shapes and sizes for all AB irons and other makes as well. (1) Nickel-Plated. (2) "Paragon" Quality—best.

PARTS AND ACCESSORIES

You can always get original-equipment-quality parts for any American Beauty Soldering Iron—standardized for quick, easy repair. Also: AB cord sets; spooled and bulk heater cord in 250' lengths; branding irons; soldering iron
